# Mobile Content Cards

Content cards for mobile come in two widths, Mini and Full. The card's height may vary to accommodate content. Cards should have 20px of space between other cards.

Card come in two colors, Chalkboard 05 or White. Refrain from using the same color of card as is being used for the background. Never use any other color for card backgrounds.

310px

This is a mobile Mini Card example. This content will stretch the height of this content card until it's exactly right. It will always be this snug.
